

# Gogo Cloudport

## Update your Gogo Vision entertainment content without lifting a finger

Gogo Cloudport is a small, simple device that lets you wirelessly, automatically update your Gogo Vision content – without you having to lift a finger. It's the incredibly easy way to keep your inflight experience current with the latest movies, TV shows, magazines and more – all while your aircraft is parked in the hangar.

### FEATURES

#### Remote content updates for Gogo Vision

- Replaces monthly content updates via USB stick
- Enables automatic downloads of new Vision content such as movies, TV shows, news clips and more, by utilizing a wireless connection to an onboard AVANCE or UCS system.

#### Remote troubleshooting for Gogo support

- Remotely collects Gogo information from your aircraft for Gogo Tech Support to troubleshoot and assist Vision content delivery or Cloudport connection issues.

#### Remote software updates for AVANCE systems

- *Coming soon:* Gogo AVANCE systems will have the ability to perform remote software updates, keeping your system up to date without an upgrade kit or hands-on headaches.

### COMPATIBILITY

#### Gogo Cloudport is compatible with the following

##### Gogo Business Aviation products:

- SCS Elite/Media with Software Version 3.0 or later that has FBO/Gogo Cloud Functionality enabled
- AVANCE L3 with Software Version 3.0 or later that has FBO/Gogo Cloud Functionality enabled
